NEW Industry 4.0 webinar - Young generations & Manufacturing: an insurmountable gap?

Why do industrial positions seem unattractive? The Manufacturing Industry is facing a double challenge: fight against some negative misconceptions but also reinvent itself to rise over the criticisms against it. Diversity, working conditions, skills, career growth, etc. The list of topics is long, join us to discuss the causes but also the concrete solutions that can be put in place.

When? 15 November 2022 from 10:30 to 11:30 CET

Make sure to register now and let us hear your voice on the topic for this edition!

PROJECT CLUSTERING EVENT
Adopting industrial laser technologies:
opportunities and success stories for
manufacturing companies
9 | November | 2022

AIMEN Tecnology Centre organises, in collaboration with the consortiums of the EU H2020 projects INTEGRADDE, NEWSKIN, PULSATE, AMABLE, PHOTONHUB and LIGHTME, a clustering event on Adopting Industrial laser technologies: opportunities and success stories for manufacturing companies.

The event takes place in 9 November 2022.
